

The world is turning increasingly to preventative health & wellness solutions, embracing nutritional, therapeutic and alternative methods for maintaining optimum good health.

New
complementary
therapies are
being used to
help relieve
the effects of
stress, joint
pain, disease,
ageing
and other
health-related
problems.

NewTeq3™

Wellness Products

An innovation first - using advanced technology featuring unique combinations of:

- *Far Infrared Therapy (FIR)*
- *Negative Ion Therapy*
- *Magnetic Therapy*

NewTeq3™

Wellness Products

NEWAYS is proud to introduce non-invasive **wellness products** that may help to provide consumers with life-enhancing **wellness benefits** to relieve the stresses of everyday modern living.

NewTeq3™

Advanced technologies
may assist with:

- Helping to improve blood circulation
- Strengthening the cardiovascular system
- Easing joint stiffness
- Relaxing muscles & increasing flexibility
- Removing toxins & other wastes
- Reducing stress & fatigue

Solar Energy

covers a broad energy band, see below:

The sun's greatest output is in the **Infrared segment** of the spectrum.

Higher Frequency

Lower Frequency

Ultraviolet

Visible Spectrum

Infrared

400

500

600

700

This band of energy is not visible but can be felt as heat.

NewTeq3™

FIR

The infrared section is divided into 3 segments according to wavelength.

Higher Frequency

Lower Frequency

Ultraviolet

Visible Spectrum

Infrared

400

500

600

700

Of these, Far-Infrared Rays (FIR) in the wavelength 4-14 micron are the safest and most beneficial.

NewTeq3™

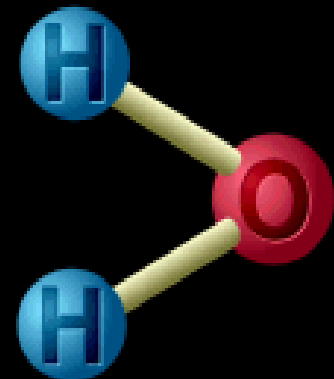

FIR

The greatest output is
around 9 micron

This is close to the resonant
frequency of a water molecule.

NewTeq3™

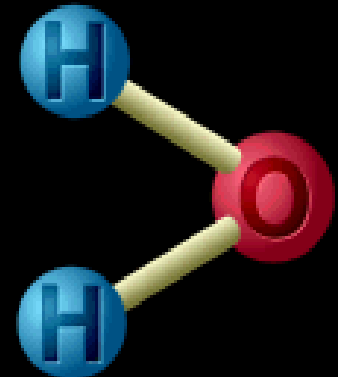

FIR

Controlled heat generated by FIR causes the water molecules in the body's micro-circulatory system to resonate.

This dilates the capillaries and increases blood flow.

NewTeq3™

FIR Therapy

**FIR Ceramic Inserts emit
FIR in the wavelength of 4
to 14 micron**

**- identical to the rays
emitted by the sun.**

NewTeq3™

Negative Ions

Negative ions are created naturally in nature by the energy associated with waterfalls, rolling surf and lightning, and are also generated by static electricity.

NewTeq3™

Negative Ions

Negative ions have an invigorating effect on the body, as can be experienced in nature by standing near a waterfall.

Negative Ions

By comparison the levels of negative ions present in different environments are:

Base of waterfall - 3000	Office - 150
Mountain air - 2000	Home - 100
Countryside air - 1500	Car - 50

NewTeq3™

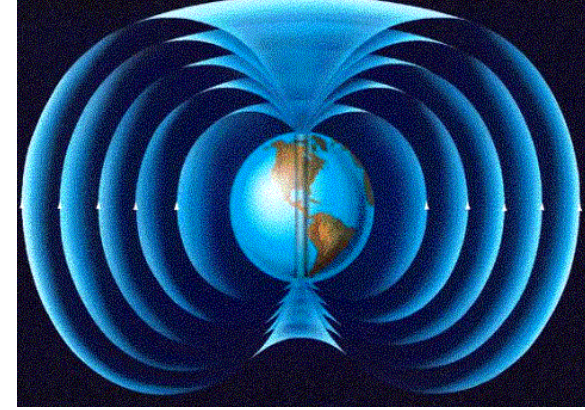

Negative Ion Therapy

**Negative Ion Ceramic Inserts
emit negatively charged oxygen
ions in the region of **1000+ ions
per cubic cm****

Magnetic Therapy

The earth's magnetic field strength has decreased by **6%** since **1830**.

Evidence suggests it has decreased by as much as **30%** over the **last millennium**.

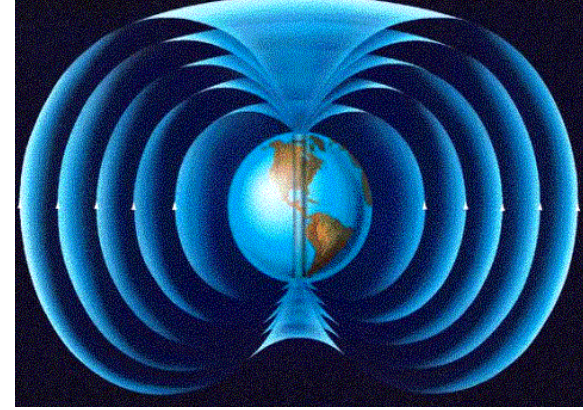

It is believed that many of today's **modern ills** are a direct **result of this decrease**.

NewTeq3™

Magnetic Therapy

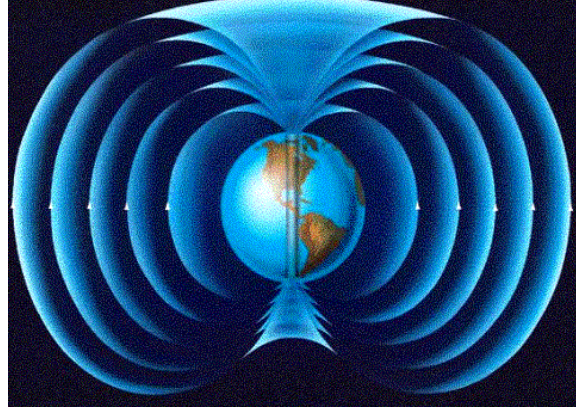

Clinical studies have found that delivering a **static magnetic field** to the body can bring a **significant relief of pain** and of nerve damage.

The application of a magnet is claimed to help **dilate the blood vessels**, **improving the circulation** and **increasing the blood flow**.

NewTeq3™

Magnetic Therapy

Magnetic inserts, emitting a field strength of 1000 gauss produce this desired effect.

NewTeq3™ Advanced Jewellery

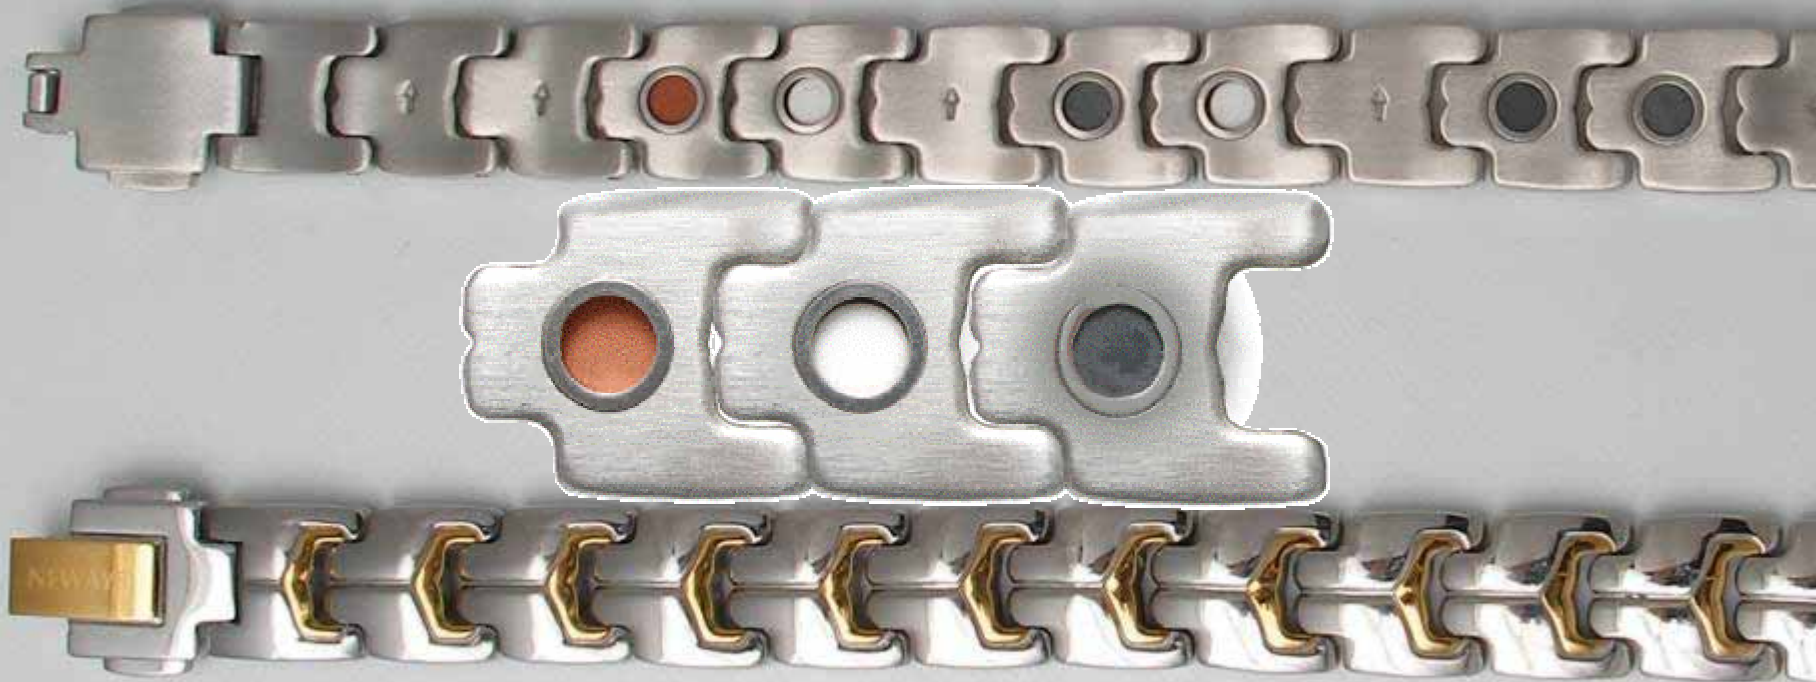

Superb
packaging &
presentation

Neways NewTeq3™ Jewellery is superior to standard 'magnetic jewellery' in several important ways -

NewTeq3™ Jewellery incorporates:

- ◆ FIR Ceramic Inserts
- ◆ Negative Ion Inserts
- PLUS ◆ Unipolar Magnets

NewTeq3™ Advanced Technology Jewellery

High quality Japanese surgical stainless steel.

NewTeq3™ Advanced Technology Jewellery

Utilises the most advanced surface finishing process in the industry for its gold-plating.

The result is a more wear-resistant and brighter gold-plating finish.
